

M2X™ Kit Components

Make Bends Two Times Faster!

Up your bending speed and increase your accuracy—without the need for a tape measure and pencil.

- Onboard measuring tape
- Easy-to-attach, movable magnetic brackets with measurement markings
- Measure your bends from the middle of the brake to save you from walking back & forth
- Helps increase accuracy & reduce waste
- Works with 10' 6" & smaller ProSeries® brakes (PRO III & newer)
- Works in conjunction with the PRO Cut-Off

NO PRE-MEASURING
